Breakfast Social

Tuesday/Thursday Breakfast Social Discussion

March 21, 2013

Highlights — SJB Group DBE Supportive Services staff held another meet and greet session on March 21, 2013. The meeting was conducted by Mr. Kenyatta Sparks and Ms. Grace Chatman (DBE Supportive Services). Attending the meeting were newly certified DBE, Mr. Willie Debose, owner of Debose Construction, and Mr. Markel Debose. The purpose of this meeting was to introduce Mr. Debose and staff to the DBE Supportive Services staff and to discuss our role in assisting his business with its growth and sustainability. There was an exchange of information regarding business marketing, bidding, doing business with DOTD, navigating DOTD's website, business management, and scheduling.

There was also some discussion about the new Small Business Element (SBE) Program certification and application process. Mr. Debose was advised to contact Mrs. Juanita Linton, DOTD SBE Program Manager at (225) 379-1382, for more information about the SBE Program.

As always we had a very productive and informative session. If you are interested in attending any of our Breakfast Social discussion meetings, please call Mr. Sparks at (225) 769-3400. These meetings are held on Tuesdays and Thursdays from 7:30 am to 8:30 am, at the SJB Group Office, 5745 Essen Lane, Suite 200, Baton Rouge, Louisiana. We look forward to hearing from and working with you to address your business needs and concerns.

Information Regarding The New Small Business Element (SBE) Program

Are you aware of the new Small Business Element (SBE) Program which went into effect October 1, 2012? The program was created to remedy past and current discrimination against small business firms. The intent of the program is to level the playing field for economically disadvantaged individuals wanting to do business with the Department of Transportation and Development (DOTD) on U.S. Department of Transportation federally assisted projects.

The eligibility requirements for the SBE Program are different from the Disadvantaged Enterprise (DBE) Program requirements. The eligibility requirements for the SBE Program are:

- ✦ The business must be at least 51% owned and controlled by an economically disadvantaged individual (where economically disadvantaged is defined as a person whose personal net worth is less than \$1.32 million).
- ✦ The economically disadvantaged owner must be a U. S. citizen or lawful permanent resident of the U.S.
- ✦ The business must meet the Small Business Administration's size standard and not exceed the \$22.41 million in gross receipts.
- ✦ The business must be for profit.

If you are currently certified as a DBE and interested in applying for certification as a SBE, you will be required to complete a two (2) page SBE certification application. The SBE certification process is more involved for businesses that are not currently DBE certified, so you will be required to complete a six (6) page application. The certification process ensures that only qualified small business firms that are controlled by one or more economically disadvantaged individuals are certified for this program.

In order to comply with regulatory mandates, LADOTD will accept SBE certifications from the City of Baton Rouge, and the New Orleans Regional Transit Authority. In order for the SBE certified firms to be included in DOTD's SBE directory, the firm must request in writing and provide documentation to the LADOTD SBE Certification Unit verifying their SBE Certification and the items of work the firm is certified in. Accepting the certification from the City of Baton Rouge and the New Orleans Regional Transit Authority will eliminate the necessity for SBE firms to complete multiple applications as certification decisions are reciprocally accepted with these agencies.

For further information or to download a SBE application, please go to:

<http://www.dotd.la.gov/administration/compliance/downloads.aspx>

or Contact: Mrs. Juanita Linton, DOTD SBE Program Manager at (225) 379-1382.

UPCOMING WORKSHOPS....

Managing a Business

Certification: An Overview in Black & White

Tuesday, April 09, 2013 10:00 AM to 12:00 PM—Many firms get lost in the "alphabet soup" of certifications: DBE, WBE, MBE, 8(a), SEBD . . . This seminar focuses on why (or why not) certification as a minority, woman-owned, or disadvantaged business may be beneficial to your company. The Do's and Don'ts of certification are provided in "plain English" to help the small business owner decide which certification is right for his or her business. Then, get prepared for the certification process: learn about the various certification types as well as how and where to apply. Attendees will have an opportunity to ask questions about the processes, benefits and documentation required for certification.

Speaker: Erik Waters

Location: [New Orleans Healing Center, New Orleans](#)

Starting & Financing a Small Business

Thursday, April 18, 2013 6:00 PM to 8:00 PM—This seminar will provide entrepreneurs with a comprehensive overview of the steps to be taken to start a business, the essentials of business planning, and how to determine funding needs for the start-up. Seminar covers: • Items you want to know before starting a business • Preparing for business success • How to start your business • Financing options • Resources for your business

Speaker: Mike Pennison, Business Consultant

Location: [LSBDC Greater New Orleans Region: Main Office, UNO Jefferson Center, *Metairie](#)

FEATURED DBE FIRM.....

Parms Construction, LLC

Mr. Willie Parms III, owner of Parms Construction LLC, established the business in 1999. His goal is to provide clients with top quality construction services. He sees the construction business as being complex, requiring extensive attention to detail through multiple phases of a project. However, at Parms Construction, he and his employees make it their business to understand the complexities of project management, so their clients won't have to.

The company provides a full range of construction management services and project management planning, balancing efficiency with quality. Mr. Parms understands that attention to time management and cost management guarantee that your project will be completed on time and on budget. He and his employees are proud of their safety management services, excellent contract management services, and attention to professional practices which means that every phase of a project receives equal dedication, from beginning to end.

Mr. Parms received his BA from Tulane University in 1994. He was certified in 2013 as a Certified Construction Manager by the Construction Management Association of America, certified by Drexel University, MS in Construction Management, and received a certification from CH2M Hill Engineering Construction Managers Mentor Protégé Program in 2010. He is a member in various organizations; Construction Management Association of America, Associated General Contractor's of America, Safety Council Capital Region, and the Louisiana Engineering Society.

Mr. Parms states, "If you want your project done right, done efficiently, and done professionally, Parms Construction is your best choice."

Congratulations to Mr. Willie Parms!

What can SJB Group do for You?

SJB Group, LLC can provide **free assistance** to certified LADOT DBE firms in the following areas:

SJB Group can assist you by: preparing company business cards, profile sheets, and providing information on recommended target areas for your marketing efforts.

By acting as a liaison between the DBE Contractor and Prime Contractor for project information, and in problems occurring on the jobsite.

By informing of upcoming LADOT lettings, and project information for other agencies throughout the state. SJB can assist you in locating bid tabulation information as well.

By providing assistance and guidance on material takeoffs, bid preparation and estimating, project scheduling, and planning for projects that DBE firms are bidding or plan to bid in the near future.

By helping with office computer operations to include trouble-shooting problems, Internet access and software installation, and basic to technical computer training.

By assisting in financial areas such as loan and bond package preparations, company financial statements, business plan preparation, and SBA 8(a) and Hub-Zone certification packages. (225) 769-3400.
